

Rösrath against right-wing extremism: Call for demonstration and commemoration against fascism

AfD politicians and other right-wing extremists are planning the deportation of millions of people who, in their opinion, do not belong in this country. This is meant to include: Asylum seekers, foreigners with the right to stay and those who, in their opinion, do not adapt to "German culture" – this may also include people who are German citizens but have the supposedly wrong skin colour or origin. At the same time, also among the democratic parties the language is becoming coarse and they are trying to defend themselves against the AfD with populism.

We will not put up with that!

A broad alliance of the civil society has spontaneously formed in Rösrath: Committed citizens who want to send a strong signal against fascism and the shift to the right in society.

On the International Holocaust Remembrance Day, we are standing up together to promote an open, tolerant and inclusive urban society in Rösrath.

Date: 27 January 2024

Time: At 11 am, a noisy and colourful demonstration will start from Rösrath station to Sülztalplatz.

At 11.55 a quiet commemoration will begin on Sülztalplatz to mark the Holocaust Memorial Day.

Motto: It is literally 5 to 12: Never again is now – fight fascism!

Come in large numbers, bring your families and friends to the demonstration and commemoration at Sülztalplatz. Together, we stand up for a world in which diversity is valued and respect for every human being is a matter of course. Let us stand together against fascism and discrimination. Let us send a strong, peaceful and diverse signal in favour of tolerance and against all forms of hatred.
